

CITY OF MANSFIELD
TIMOTHY L. THEAKER, MAYOR
30 N. DIAMOND STREET
MANSFIELD, OHIO
419-755-9626

For Immediate Release

Date: 8/5/17

Contact: Mansfield Water Repair Dept.

Subject: Rusty Water advisory issued.

The City of Mansfield Water Repair Department is responding to concerns associated with rusty drinking water in and around the Woodland area. The rusty water is due to complications at the Woodland Reservoir associated with a pump failure. Turbulence was created in the system that caused the rusty water to appear. Department personnel are responding to the concerns by flushing out the system through fire hydrants.

The rusty water is considered an aesthetic nuisance and is safe for domestic use; however, it is highly recommended that clothes are not washed.

We expect this problem to be rectified soon and apologize for any inconvenience this may have caused.

Thank you,

City of Mansfield Water Repair
