Subject: Street Lights

Mansfield, OH-- Mayor Theaker is pleased to announce that due to the passage of the PRIDE levy, all 766 shuttered street lights have been turned back on. Your patience has been appreciated as Ohio Edison just recently completed the re-illuminating program. In addition, the City of Mansfield has partnered with First Call 211 which is now prepared to assist citizens who discover a street light that is burned out or not functioning as intended. Just call "211" and they will ask you a few questions regarding the street light. A work request will be issued and sent to Ohio Edison to replace the bulb or repair the light fixture. Ohio Edison typically responds within two to ten business days.
