Subject: Take Pride Award

Mansfield, OH-- Mayor Tim Theaker is pleased to announced that employees of the City of Mansfield have won the first place award in the Business/Government category for the Take Pride Earth Stewardship Contest with their beautification efforts around the City Building.

Employees purchased annual flowers, brought in perennials, and donated their time after hours to beautify the grounds around the City Building with no city funds expended on this project.

Mayor Theaker invites citizens to come downtown to see the improvements that employees have made in their efforts to assist in making our city a more beautiful and inviting place in which to live.
