

| Utility Type LEGEND | | | |
|---------------------|-------------|-----|-------------|
| E | Electric | SAN | San Sewer |
| G | Gas | STM | Storm Sewer |
| L | Lighting | TR | Traffic |
| T/C | Tele./Comm. | W | Water |

| REF. No. | ROUTE | STATION | SIDE | UTILITY TYPE | Conflict Priority | OWNER | CONFLICT Description | EMHT Disposition of Conflict | Owner Further Comment |
|----------|-----------|------------------|----------|--------------|--------------------|--------------|---|--|-----------------------|
| 1 | E 3rd St | Parallel | North | G | No Longer Conflict | Columbia Gas | 2" Diameter Distribution line | No anticipated conflict | |
| 2 | E 3rd St | 114+90 to 115+68 | South | G | No Longer Conflict | Columbia Gas | 2" Diameter Distribution line in conflict with arch structure removal | To be relocated within Columbia Gas Utility Easement as coordinated with Columbia Gas. | |
| 3 | E 3rd St | 110+48 | South | G | No Longer Conflict | Columbia Gas | Marker in conflict with proposed structure - no visible lines based on OUPS and GIS information | No record plans indicated by Columbia Gas. Marker to be removed | |
| 4 | E 3rd St | Parallel | North | SAN | No Longer Conflict | City | 8" Clay Pipe | No anticipated conflict | |
| 5 | E 3rd St | 110+94 to 114+75 | South | SAN | Low | City | 6" Plastic Pipe adjacent temporary shoring | Portions to be Removed and Replaced with new 8" San and reducer. Shoring and Removal Limits depicted in the plans are provided to protect inaccessible portions to remain undisturbed during construction. | |
| 6 | E 3rd St | 111+93 | South | SAN | No Longer Conflict | City | Manhole adjacent temporary shoring | To be Removed and Replaced | |
| 7 | E 3rd St | 114+55 | South | SAN | Low | City | Manhole, potential conflict with shoring required for existing brick arch removal | Do not Disturb. Shoring and Removal Limits depicted in the plans are provided to protect inaccessible portions to remain undisturbed during construction. | |
| 8 | E 3rd St | 114+75 | North | SAN | No Longer Conflict | City | Manhole adjacent proposed receiving pit for proposed water line construction | No anticipated conflict | |
| 9 | E 3rd St | 114+75 | South | SAN | No Longer Conflict | City | Manhole, potential conflict with excavations, likely replacement if disturbed | To be Removed and Replaced | |
| 10 | E 3rd St | 110+50 | South | STM | No Longer Conflict | City | Ex 12" Outlet, 30" Outlet, and Manhole in conflict with proposed structure | To be replaced and redirected to a single outlet | |
| 11 | E 3rd St | 111+78 | South | STM | No Longer Conflict | City | 8" Drain, active service to be verified | Outlet to be replaced | |
| 12 | E 3rd St | 112+23 | South | STM | No Longer Conflict | City | 8" Drain, active service to be verified | Outlet to be replaced | |
| 13 | E 3rd St | 112+38 | South | STM | No Longer Conflict | City | 10" Drain, active service to be verified | Outlet to be replaced | |
| 14 | E 3rd St | 114+02 | South | STM | No Longer Conflict | Unknown | 6" Drain, active service to be verified | Outlet to be replaced | |
| 15 | E 3rd St | 114+53 | North | STM | No Longer Conflict | City | 18" Pipe Outlet | Outlet to be replaced | |
| 16 | E 3rd St | 114+63 | South | STM | No Longer Conflict | City | 12" Pipe Outlet and Inlets | Curb Inlet to be replaced, Pipe outlet to be redirected to tie into west sewer | |
| 17 | E 3rd St | 114+83 | South | STM | No Longer Conflict | City | 12" Pipe Outlet and Inlets | Outlet to be replaced | |
| 18 | E 3rd St | 115+40 | South | STM | No Longer Conflict | City | 8" Pipe Outlet and Inlets | Outlet to be replaced | |
| 19 | E 3rd St | 118+33 | North | STM | No Longer Conflict | City | 12" Pipe Outlet | Outlet to be replaced | |
| 20 | E 3rd St | 118+72 | South | STM | No Longer Conflict | Unknown | 6" Drain, active service to be verified | Outlet to be replaced | |
| 21 | E 3rd St | 115+26 | South | Unknown | No Longer Conflict | Unknown | 3" lateral through existing structure | To be capped and abandoned | |
| 22 | E 3rd St | Parallel | North | W | No Longer Conflict | City | 4" Main | Line to be replaced with new 8" line. Proposed service tee and valves at locations depicted in plan | |
| 23 | E 3rd St | 110+94 to 114+75 | South | W | No Longer Conflict | City | 1" Copper Service Line, potential conflict with excavation | To be removed | |
| 24 | E 3rd St | 111+31 | South | W | No Longer Conflict | City | Service valve in conflict with excavation | To be removed | |
| 25 | E 3rd St | 111+35 | South | W | Low | City | Manhole in conflict with excavation | Do not Disturb. Shoring and Removal Limits depicted in the plans are provided to protect inaccessible portions to remain undisturbed during construction. | |
| 26 | Foster St | Parallel | West | W | No Longer Conflict | City | 4" Main, portions to be abandoned and replaced to support culvert construction | To be removed | |
| 27 | E 3rd St | 114+90 to 118+23 | South | W | No Longer Conflict | City | 4" Main, Hydrant and Valves to be relocated to north to support culvert construction | To be removed | |
| 28 | E 3rd St | 111+98 | Overhead | E | No Longer Conflict | Ohio Edison | Overhead line in conflict with crane operation | Temporary service outage during construction phase. Utility to install service pins prior to construction. | |
| 29 | E 3rd St | 113+68 | Overhead | E | No Longer Conflict | Ohio Edison | Overhead line in conflict with crane operation | To be removed by others | |
| 30 | E 3rd St | 114+97 | Overhead | E | No Longer Conflict | Ohio Edison | Overhead line in conflict with crane operation | Temporary service outage during construction phase. Utility to install service pins prior to construction. | |
| 31 | E 3rd St | 115+27 | Overhead | E | No Longer Conflict | Ohio Edison | Overhead line in conflict with crane operation | Temporary service outage during construction phase. Utility to install service pins prior to construction. | |
| 32 | E 3rd St | 119+03 | Overhead | E | No Longer Conflict | Ohio Edison | Overhead line in conflict with crane operation | Temporary service outage during construction phase. Utility to install service pins prior to construction. | |
| 33 | E 3rd St | 111+98 | Overhead | T/C | No Longer Conflict | Century Link | Overhead line in conflict with crane operation | Temporary service outage during construction phase. | |
| 34 | E 3rd St | 114+23 | Overhead | T/C | No Longer Conflict | Century Link | Overhead line in conflict with crane operation | To be removed by others | |
| 35 | E 3rd St | 114+97 | Overhead | T/C | No Longer Conflict | Century Link | Overhead line in conflict with crane operation | Temporary service outage during construction phase. | |
| 36 | E 3rd St | 115+27 | Overhead | T/C | No Longer Conflict | Century Link | Overhead line in conflict with crane operation | Temporary service outage during construction phase. | |
| 37 | E 3rd St | 119+03 | Overhead | T/C | Low | Century Link | Overhead line in potential conflict with crane operation | Do not Disturb. Contractor shall coordinate with utility to ensure adequate clearance is provided during crane operation | |
