30 N. DIAMOND STREET
MANSFIELD, OHIO
419-755-9626

For Immediate Release

Date: 10/30/23

Contact: Steve Brown / Mansfield Water Repair
Dept.

Subject: Boil advisory issued

Due to a water main depressurization it will be necessary to issue a boil advisory for the Northeast quadrant of the City of Mansfield. This area consists of the following boundaries:

North of Park Avenue East from Main Street to Ashland Road

North of Ashland Road from Park Avenue East to Stewart Road (this includes both sides of Ashland Road)

East of North Main Street from Park Avenue East to Baird Parkway (this includes both sides of North Main Street)

South Diamond Street from Park Avenue to Woodville Road includes areas to the north.

Luther Street, Reform Street, Beethoven Street and Rembrandt Street.

• If water has not been used for several hours, run the tap until there is a noticeable **temperature drop**. **Then, run water for 30 seconds to 3 minutes before using it for drinking and cooking.** This helps flush water that may have contained lead that may have leached from plumbing. **Use cold water for cooking, drinking, and preparing baby formula.** Boiling the water will not reduce lead. • **Clean your faucet aerator regularly.**

For additional information visit drinktap.org or www.epa.gov/safewater/lead.

Under a boil advisory it is suggested that all consumed water be brought to a rolling boil for a full 3 minutes prior to consumption. This is a precautionary measure to be taken until samples can be tested to confirm water purity. A notice will be issued at the completion of the test.

Any questions concerning this notice may be directed to the Water Repair Dept. during normal business hours Monday thru Friday 7:00am to 3:30pm at 419-755-9806.

Thank you,

City of Mansfield Water Repair
