

The City of Mansfield, Ohio is seeking federal funds in coordination with the Ohio Department of Transportation, to construct an approximately 6,000-foot multi-use path consisting of approximately 300 feet of boardwalk and 5,700 feet of 11-foot-wide concrete path, between Home Road and Trimble Road. The project limits are from Trimble Road and the B&O Bike Trail East of Home Road. The proposed project will:

- Installation of an 11-foot-wide multi-use path
- Installation of a new 11-foot-wide boardwalk to avoid disturbing existing wetlands
- Drainage improvements
- New pedestrian traffic control features such as signage

The City is seeking public involvement and information related to the project and anticipates awarding a contract in the summer of 2025. Public involvement will be in the form of a survey that can be found on our *Trimble Road Trail Extension* article by following the link provided down below. Additional information can be found on the City of Mansfield's Engineering Department website (<https://ci.mansfield.oh.us/public-works-departments/engineering-department/>).

Limited Right of Way through the means of a Standard Highway Easement will be obtained on an as needed basis from the Property Owners. The Federal Uniform Act for property acquisition will be followed as the City moves to purchase any necessary Right of Way. If right-of-way acquisition is needed from your property, a real estate representative will reach out to you individually.

It is anticipated a portion of the B&O Bike Trail will be disturbed during construction although the impact will be minimized to avoid long impact duration.

The City is seeking all applicable environmental permits to construct the project.
